Host Your Own Reality Fair!

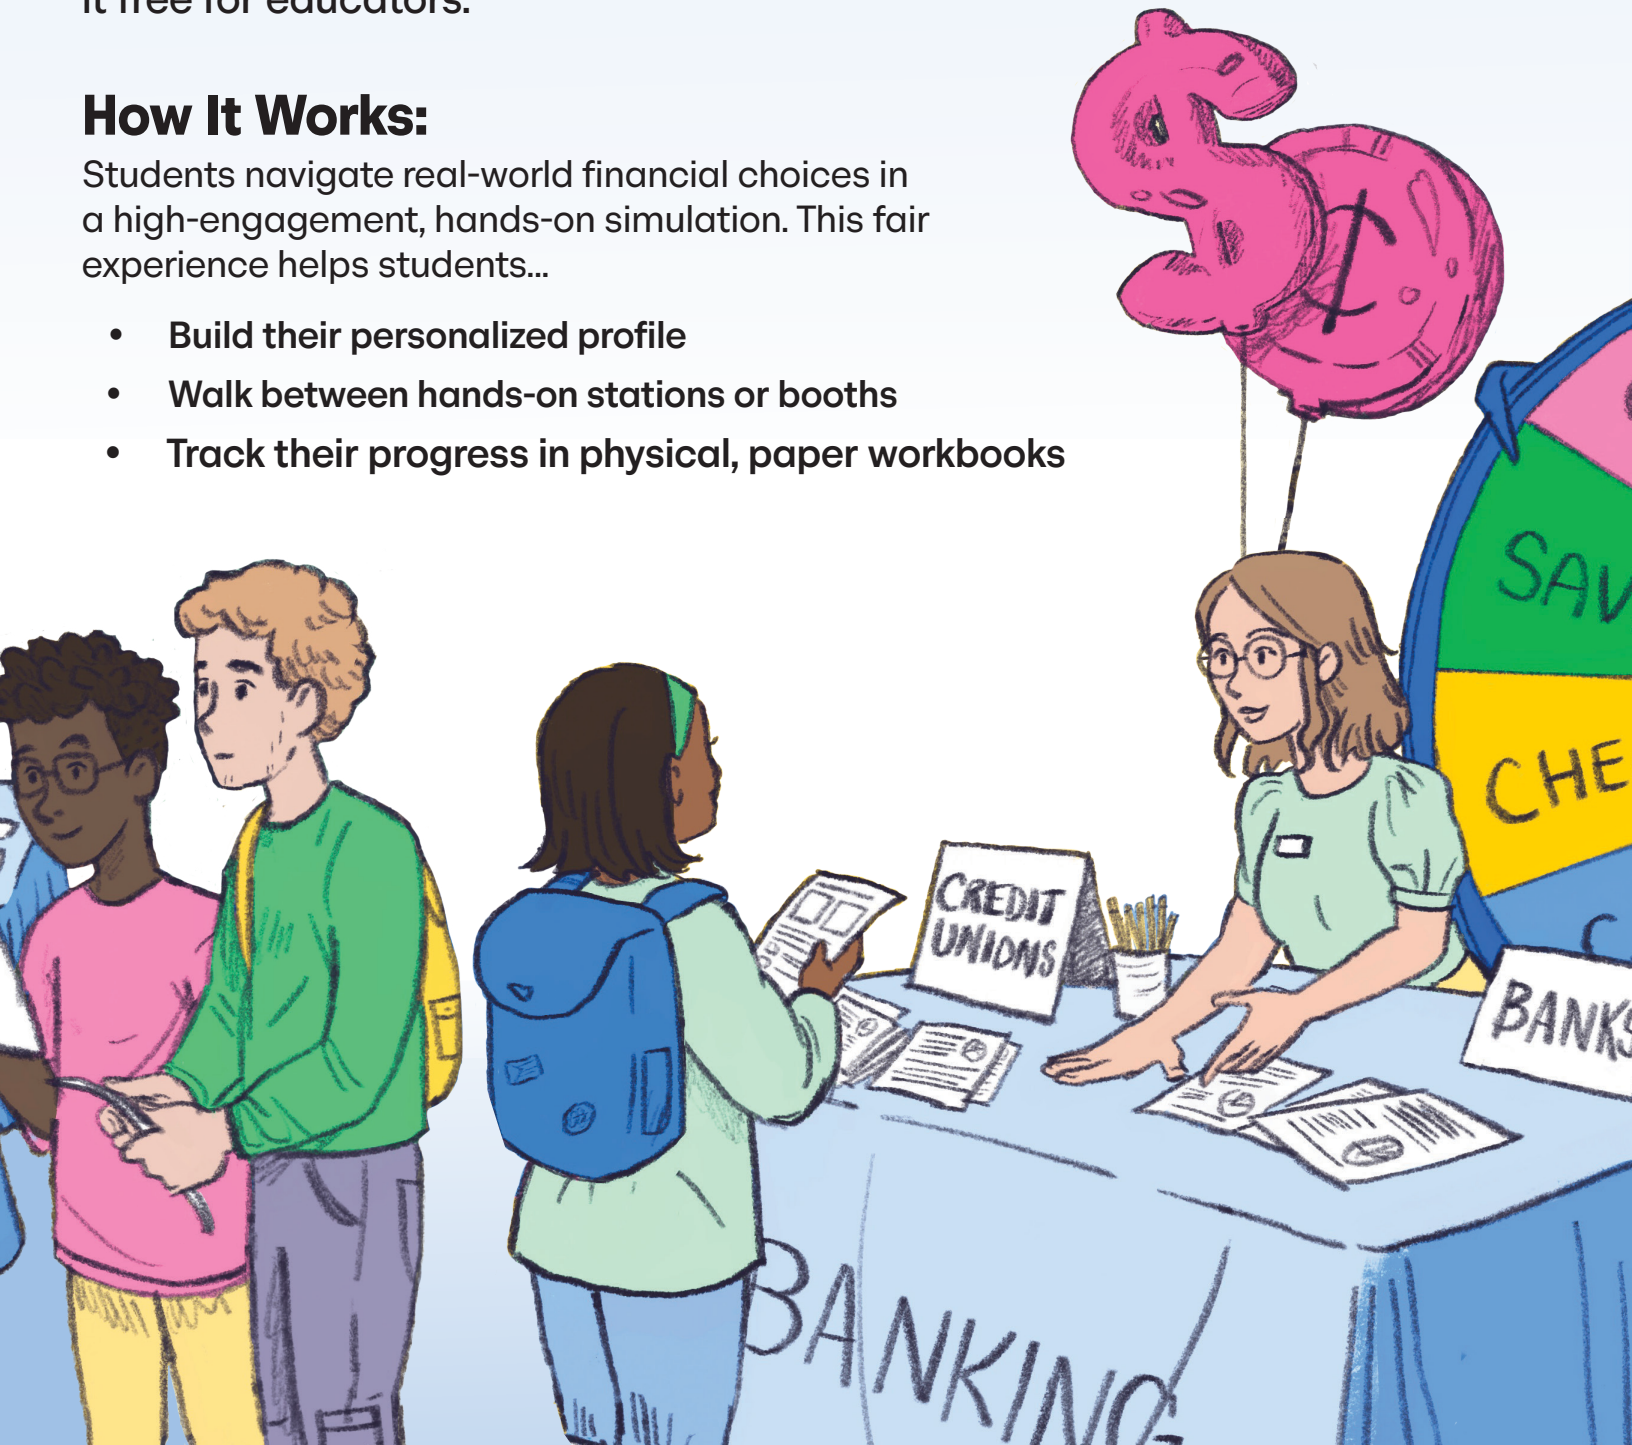

Bring hands-on life-scenario-based learning to your school—100% free.

Banzai's Reality Fair uses state labor data to assign students realistic incomes and lifestyle costs, throwing in financial twists at the "Life Happens" booth so they learn to adapt on the fly. Best of all, community partners make it free for educators.

How It Works:

Students navigate real-world financial choices in a high-engagement, hands-on simulation. This fair experience helps students...

- **Build their personalized profile**
- **Walk between hands-on stations or booths**
- **Track their progress in physical, paper workbooks**

What YOU get to run your fair!

Through your community partner, you receive a mix of printed and digital materials that can be shipped directly to educators or materials can be downloaded and printed straight from the Banzai Teacher Library.
